S.B. 825

Committee Report (Unamended)

BACKGROUND AND PURPOSE

Every year millions of road fuel tax refunds for gasoline and for water crafts are unclaimed. As a result, the comptroller of public accounts sends unclaimed road fuel tax refunds to the Texas Parks and Wildlife Department (TPWD). Currently, TPWD uses unclaimed motor fuel taxes for state park operations. TPWD operations include programs to control non-native nuisance plants from spreading and causing damage.

Hydrilla and other non-native, nuisance plants are often spread through motorboat use. The plants move from one body of water, get trapped on motorboat blades of a boat, and then spread to other waterways where the boat travels. This infestation has become a problem in Texas lakes. Hydrilla infestation can be dangerous to swimmers and boaters and needs to be controlled.

As proposed, S.B. 825 authorizes TPWD to create a program to control certain non-native nuisance plants with money from unclaimed road tax refunds.

RULEMAKING AUTHORITY

It is the committee's opinion that this bill does not expressly grant any additional rulemaking authority to a state officer, department, agency, or institution.
