### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

In 2005, the 79th Legislature enacted changes to Chapter 394, Finance Code, regulating consumer debt management services. The changes were intended to provide a substantial level of protection for consumers seeking assistance in managing their debts. Key provisions included registration of service providers of debt management, establishment of fair and reasonable fees, required written agreements, requiring trust accounts and other financial management safeguards, and prohibitions against deceptive advertising. This allowed only tax-exempt 501(c)(3) organizations to provide debt management services to consumers in this state. Recently, the Internal Revenue Service (IRS) and the Federal Trade Commission have questioned the debt management service activities of tax-exempt organizations and the IRS has determined that the activity of many of these organizations does not meet the charitable or educational purpose upon which their tax-exempt status is based.

S.B. 884 removes the requirement that a provider of debt management services be organized as a nonprofit tax-exempt organization, but maintains regulation of entities that seek to provide such services.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

### **SECTION BY SECTION ANALYSIS**

SECTION 1. Amends Section 394.204(c), Finance Code, to require that certain additional information be included in an application for an initial registration regarding consumer debt management services (application), including a detailed description of the ownership interest of certain persons in a for-profit affiliate or subsidiary of the applicant or in any other for-profit business entity that provides services to the applicant or to a consumer in relation to the applicant's debt management business be included in an application only applies, if an applicant is a nonprofit or tax exempt organization.
