### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Current law allows zoning around airports to ensure compatible land uses. The Houston airport system is currently considering additional capacity enhancements to George Bush Intercontinental Airport to accommodate growing aviation demand, but the federal government is insisting upon the adoption of land use control measures to protect its investment in airport facilities both existing and new, consistent with the assurances. However, the City of Houston's charter requires the city to wait six months and then hold a citywide referendum if the city council adopts a zoning ordinance.

S.B. 1360 clarifies that Chapter 241 (Municipal and County Zoning Authority Around Airports), Local Government Code, preempts the City of Houston's charter. Any proposed zoning ordinance would not be applied citywide under this bill, rather only around the perimeter of the three Houston airports, consistent with Chapter 241, Local Government Code. Application of this bill would also provide that the City of Houston would not be required to conduct a citywide referendum after it adopts a "controlled compatible land use areas" zoning ordinance.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
