AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, it is an offense under Section 30.05, Penal Code, to trespass on the property of another person, except in certain limited situations. Section 1071.358, Occupations Code, entitles a licensed state land surveyor engaged in his or her official capacity who is denied permission to enter land owned by a private party to seek and obtain a court order to enforce the licensed state surveyor's authority to enter the land. However, that statute only applies to land surveyors engaged in surveying in the interest of the state and does not apply to registered professional land surveyors who are surveying for other purposes, such as locating property boundaries, platting subdivisions, or preparing easement and real property descriptions.

S.B. 1634 provides that a registered professional land surveyor may seek and obtain a court order authorizing the surveyor to enter land owned by a private party when the surveyor is acting in his or her official capacity or when the issuance of the court order is in the public's best interest.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
