AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In the wake of hurricanes Katrina and Rita, it became apparent that continued access to healthcare services in an emergency is vital, particularly access to prescription medications. Existing statute authorizes pharmacists to refill medications without a doctor's prescription. However, such a refill may only be made for a three-day period.

S.B. 1658 extends the three-day period to 30 days to provide more time for a patient to access his or her doctor in the event of a natural or manmade disaster.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
