

**LEGISLATIVE BUDGET BOARD**

**Austin, Texas**

**FISCAL NOTE, 80TH LEGISLATIVE REGULAR SESSION**

**May 3, 2007**

**TO:** Honorable Kip Averitt, Chair, Senate Committee on Natural Resources

**FROM:** John S. O'Brien, Director, Legislative Budget Board

**IN RE: HB462** by Miller (Relating to the authority of certain municipalities to collect an infrastructure fee from certain governmental entities.), **As Engrossed**

**No significant fiscal implication to the State is anticipated.**

House Bill 462 would amend the Government Code so that municipalities with populations of fewer than 25,000 through which the Bosque River runs would no longer be prohibited from collecting a fee from a state agency or public institution of higher education for the control of excess water or storm water.

**Local Government Impact**

Implementing the provisions of the bill could result in recovery of costs for cities that meet the new population parameters. If a unit of local government needed to develop or maintain a program of facilities for the control of excess water or storm water, it could collect infrastructure fees from state agencies and institutions of higher education. The amount of the fees would depend on the size of the project.
