Fiscal Analysis

This bill would amend Texas Education Code 42.152 to set aside at least \$30 million annually from the compensatory education allotment to fund the Communities In School (CIS) program.

The bill would take effect September 1, 2007.

Methodology

Current funding for CIS from state funds is \$15,630,976 per year. Increasing this to \$30 million would require an additional \$14,369,024 in appropriations from the Foundation School Fund per year.

These additional appropriations would be paid through reductions to districts' Tier 1 compensatory education allotments. However, due to the changes in school finance made by House Bill 1, 79th Legislature, 3rd Called, a reduction in a district's Tier 1 state aid would result in a corresponding

increase in hold harmless state aid in order to reach the district's total revenue target. Therefore, increases in appropriations for set-aside programs result in increased state cost. In the event Education Code 42.2516 were changed to restore set-aside funding to its pre-House Bill 1 (79-3) functionality, the bill would have no net state fiscal impact.

Technology

The bill would have no fiscal impact upon the agency's technology costs.

Local Government Impact

School districts with local Communities in Schools programs in place could see an increase in state funding for those programs.

In the event Education Code 42.2516 were changed to restore set-aside funding to its pre-House Bill 1 functionality, the bill would reduce districts' funding through the compensatory education allotment.
