

**LEGISLATIVE BUDGET BOARD**  
**Austin, Texas**

**FISCAL NOTE, 80TH LEGISLATIVE REGULAR SESSION**

**April 2, 2007**

**TO:** Honorable Rob Eissler, Chair, House Committee on Public Education

**FROM:** John S. O'Brien, Director, Legislative Budget Board

**IN RE: HB1616** by Dutton (Relating to the dates for which public school student enrollment information must be submitted under the Public Education Information Management System.), **As Introduced**

<p><b>No significant fiscal implication to the State is anticipated.</b></p>
--

This bill would require school districts and open-enrollment charter school to submit enrollment data through the Public Education Information Management System (PEIMS) twice a year: the last Friday of October and the last Friday of March.

The cost to the Texas Education Agency (TEA) to add a new PEIMS data collection after March is not expected to be significant.

**Local Government Impact**

TEA estimates that school districts would be required to update either locally developed Student Information Software (SIS) or vendor software. The agency estimates the cost per district to update SIS software applications would be approximately \$10,000 per district for a cost of \$12 million statewide.
