Fiscal Analysis

The bill would amend the Occupations Code relating to the prizes awarded in a progressive bingo game by prohibiting a jackpot or consolation prize from having a value greater than \$2,500 for a single progressive bingo game. The bill also provides that an organization may only offer one progressive bingo game during each bingo occasion and prohibits a consolation prize in certain progressive bingo games from exceeding \$250. The Texas Lottery Commission (TLC) would be required to adopt rules necessary to implement the provisions of the bill.

This bill would take effect immediately upon receiving a vote of two-thirds of all members elected to each house or would otherwise take effect on September 1, 2007.

Methodology

Based on the analysis of the Comptroller of Public Accounts (CPA), the bill would result in a revenue gain to the General Revenue Account of \$749,000 in fiscal year 2008; \$840,000 in fiscal year 2009; \$886,000 in fiscal year 2010; \$932,000 in fiscal year 2011; and \$975,000 in fiscal year 2012. The revenue gain identified by the CPA is based on the assumption that rolling jackpots and the increased maximum prize for progressive bingo games would increase total prize payouts and increase the number of bingo occasions around the state, thereby increasing the total amount prize fee revenue generated.

Local Government Impact

No significant fiscal implication to units of local government is anticipated. Impact to local jurisdictions is reflected in the table above.
