2008	\$3,333,000
2009	\$0
2010	\$0
2011	\$0
2012	\$0

Fiscal Analysis

The bill would amend the Occupations Code and the Transportation Code relating to the terms of motor vehicle dealer licenses and general distinguishing numbers. The bill would remove the annual renewal requirement for a dealer license and authorize the Texas Department of Transportation (TxDOT) to set the license and renewal periods. The bill would take effect immediately upon receiving a vote of two-thirds of all members elected to each house or otherwise on September 1, 2007.

Methodology

TxDOT indicates that the provisions of the bill would authorize the department to extend the motor vehicle dealer license renewal cycle from annual renewals to staggered biennial renewals. Based on

the information provided by TxDOT, annual license renewal revenue is approximately \$6.6 million. Also based on information provided by the agency, this analysis assumes that TxDOT would implement a staggered biennial renewal in fiscal year 2008 whereby half of the licensees renewed their licenses for one year at the current annual rate and half of the licensees renewed for a two-year period at twice the annual rate. This analysis also assumes the number of renewals would remain constant for 5 years and that the resulting impact to the State Highway Fund would be a one-time revenue gain of approximately \$3.3 million in 2008. It is also assumed that the remaining half of the licensees would renew their licenses for a two-year period in 2009, which would not result in a significant impact to the state's cash flow anticipated under current law.

Local Government Impact

No fiscal implication to units of local government is anticipated.
