**Fiscal Analysis**

The bill would amend Chapter 24, Government Code, to create a new judicial district in Bastrop County, the 423rd Judicial District. The district would be created September 1, 2008 and the bill would take effect September 1, 2007.

## **Methodology**

The annual salary provided by the state for a district judge is \$125,000, in addition to benefits (state contributions for group insurance and to the Judicial Retirement System) which are estimated to be \$33,223 annually. The total annual salary and benefits cost for a district judge is estimated to be \$158,223.

## **Local Government Impact**

According to Bastrop County officials, the start-up costs for the new judicial district would total \$281,050 for salaries, benefits, transportation, equipment and furniture, including a one-time cost of approximately \$8,000. (Bastrop County is currently constructing a new jail facility, which will include a new courtroom. Courthouse security personnel for the newly constructed courthouse have already been included in the county budget.) Because all furniture and equipment would not have to be replaced each year, annual costs after the first year would total \$273,050.

Bastrop County's fiscal year begins on October 1. For fiscal year 2009, it is assumed that the proposed 423rd Judicial District would be in start-up mode and would generate about the same amount of revenue that each of the other district courts generate for the county; therefore, no additional revenue would be available to offset the cost of the additional judicial district. In the future, it is assumed that improved caseload management brought about by the creation of a new judicial district could result in higher revenues; however, the amount of increased revenues cannot be estimated.
