**Fiscal Analysis**

The bill would amend Chapter 25 of the Government Code to create a statutory county court at law in Montgomery County as of September 1, 2007. The bill would take effect on September 1, 2007.

## **Methodology**

Montgomery County is currently served by four statutory county courts. According to the Montgomery County Auditor, the average annual operating expenses for a county court are estimated at \$762,400, which includes salaries, benefits, supplies and capital costs.

Montgomery County's fiscal year begins October 1. For fiscal 2008, it is assumed that the proposed Montgomery County Court at Law No. 5 would be in start-up mode and would generate about the same amount of revenue that each of the other four county courts at law generate for Montgomery County; hence, there would be no additional revenue to offset the cost of the additional county court at law. In the future, however, it is assumed that improved caseload management brought about by the creation of the new county court at law could result in higher revenues; the amount of increased revenues cannot be estimated.

Because the Montgomery County Court at Law No. 5 would be created on September 1, 2007, Montgomery County Commissioners Court would appoint a judge to fill this position beginning September 1, 2007.

## **Local Government Impact**

The cost to Montgomery County for operating a fifth statutory county court at law is reflected in the table above.
