

**LEGISLATIVE BUDGET BOARD**  
**Austin, Texas**

**FISCAL NOTE, 80TH LEGISLATIVE REGULAR SESSION**

**March 28, 2007**

**TO:** Honorable Eliot Shapleigh, Chair, Senate Committee on S/C on Base Realignment and Closure

**FROM:** John S. O'Brien, Director, Legislative Budget Board

**IN RE: SB962** by Shapleigh (Relating to funding under the instructional facilities allotment for school districts affected by troop reassignments at military installations.), **As Introduced**

<b>No significant fiscal implication to the State is anticipated.</b>
---

The bill would provide for a school district's wealth per student to be reduced by 25 percent if the district can demonstrate that it must construct, acquire, renovate, or improve one or more instructional facilities to serve the children of military personnel who have been transferred to a military base in or near the school district under the Defense Base Closure and Realignment Act of 1990. The reduction in wealth per student would be in addition to other prescribed reductions related to the priority ranking.

The bill could alter the final outcome of the Instructional Facilities Allotments (IFA) awards process in terms of which districts receive awards, but it would not increase the cost of the IFA program. It is assumed that the establishing and administering a process by which a district could demonstrate eligibility for the proposed adjustment for IFA priority ranking would not significantly affect the operations of the Texas Education Agency.

**Local Government Impact**

No significant fiscal implication to units of local government is anticipated.

School districts located near military bases could benefit from the bill's provisions if the reduction in wealth per student allows them access to funds that would not have been available without the adjustment to the property wealth measure.
