Fiscal Analysis

The bill would amend several sections including Subsections (b) and (c) and would add Subsections (e) and (f) to Section 32.058, Human Resources Code.

Subsection (b) would be amended to clarify that, with regard to the existing prohibition on providing waiver services if costs exceed the individual cost limit, cost meaning the cost over a twelve month period.

Subsection (c) would be amended to clarify that in the existing requirement for DADS to continue to provide waiver services to a person who was receiving those services on September 1, 2005, at a cost that exceeded the individual cost limit, cost means the cost over a twelve month period.

New Subsections (e) and (f) allow the department to exempt a person from the 133.3 percent cost limit, continue to provide services under the Home and Community-based Services (HCS) program to a person whose services exceed the cost limit if the department makes certain determinations, does not affect the department's compliance with the federal average per capita expenditure requirement and any cost-effectiveness requirements provided by the General Appropriations Act.

Methodology

DADS estimated that approximately five clients per year would receive a cost exemption. DADS based the incremental increase to the average cost per person served for the clients upon the experience for the CLASS clients who exceed 133 percent of costs.
