AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Some families have an income level high enough to disqualify them from Medicaid benefits but low enough to prevent them from fully paying for the medical care of a disabled child. This situation can result in the family choosing between food and healthcare for their child, a choice no one should have to make.

S.B. 187 requires the executive commissioner of the Health and Human Services Commission to develop and implement a Medicaid buy-in program for certain disabled children whose family incomes do not exceed 300 percent of the federal poverty level. The bill requires that participants pay monthly premiums on a sliding scale based on family income.

RULEMAKING AUTHORITY

Rulemaking authority previously granted to the executive commissioner of the Health and Human Services Commission is modified in SECTION 1 (Section 531.02444, Government Code) of this bill.

(b) Requires the executive commissioner to adopt rules in accordance with federal law that provide for eligibility requirements for each program described by Subsection (a), and requirements for participants in the program to pay premiums or cost-sharing payments, subject to Subsection (c).

(c) Requires that the rules adopted by the executive commissioner under Subsection (b) with respect to the program for disabled children described by Subsection (a)(2) require a participant to pay monthly premiums according to a sliding scale that is based on family income, subject to the requirements of 42 U.S.C. Sections 1396o(i)(2) and (3).
