Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In 1987, the Port of Corpus Christi Authority of Nueces County, Texas (authority) conveyed 576.615 acres of land to the United States Navy for the construction and operation of Naval Station Ingleside (NSI). The deed says that this property will revert to the authority when the property is no longer used for maritime purposes by the United States Department of Defense (DoD).

NSI became the Navy's "Mine Warfare Center of Excellence" and homeport to the Navy's Mine Warfare Force, including 14 Avenger Class mine countermeasures ships, 10 Osprey Class coastal mine hunters, and the Mine Countermeasures Command, Control and Support Ship USS Inchon.

In its 2005 Base Closure and Realignment Commission's (BRAC) recommendations, the DoD recommended the closure of NSI. Assuming no economic recovery, the DoD estimated that this recommendation, along with the recommended realignment of Naval Air Station Corpus Christi, could result in a potential reduction of 6,864 jobs (3,184 direct jobs and 3,680 indirect jobs). NSI will close in September 2010, if not sooner. With the closure of the naval station at Ingleside, the authority seeks additional statutory authority to provide for security in the channels and waterways under the authority's control.

C.S.S.B. 836 authorizes the authority to enter into interlocal agreements or contract with qualified parties for security.
