### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The Anderson County Underground Water Conservation District (district) was created during the 70th Legislature, Regular Session, 1987, by S.B. 1518. The law provided that elections for the board of directors would be held in odd years, but elections eventually began to be held during even years.

Last summer, the Texas Legislative Council told the district president that district was out of compliance with the law and that the problem needed to be corrected. According to conversations between the district and the Office of the Secretary of State, the only way to get back into compliance was to introduce a bill to correct this error.

As proposed, S.B. 848 requires that an election be held on the uniform election date in May every two years to elect the appropriate number of directors to the board of directors of the Anderson County Underground Water Conservation District.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
