Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, there is a lack of outreach to Texas servicemembers and their families regarding possible services and benefits for which they may be eligible. Other than the Health and Human Services Commission (HHSC) inquiring in its forms for services whether a person is a veteran, and if so identified, referring them to veterans services, there is insufficient outreach, particularly on the Texas Information and Referral Network (TIRN).

C.S.S.B. 1463 directs the Texas Veterans Commission (TVC) to the extent possible, to participate in the transition assistance program conducted by the United States Department of Defense and distribute health benefits application forms and answer health care and other benefits-related questions. This bill also requires the Department of State Health Services and the HHSC that each individual who calls TIRN is informed of certain information related to medical or other benefits. C.S.S.B. 1463 also directs TVC to cooperate in preparing and maintaining information on the Texas Information and Referral Network.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

(b) Requires that TIRN provide the name and contact information of each entity that provides benefits to which an individual described by Subsection (a) may be entitled.

(c) Requires TVC to cooperate with DSHS and HHSC in preparing and maintaining the information relating to referrals that is provided through TIRN, as provided by this section.
