Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

This legislation provides for the creation, financing, management, powers, operation, and control of the Rowlett Downtown Management District (district) as a political subdivision of the state to facilitate the development of a planned mixed-use sustainable community. The district will administer and provide funding for improvement projects and services within its boundaries. It will provide business and residential development, housing, employment, tourism, recreation, transportation solutions, and environmental and urban design. The district will function similar to municipal management districts operating under Chapter 375 (Municipal Management Districts in General), Local Government Code, and will have the authority to issue bonds, and levy assessments and ad valorem taxes to pay for improvements necessary to further the public purposes of developing and diversifying the economy of the city, region, and state; lessening unemployment and underemployment; and developing and expanding transportation, commerce, and housing. Taxes and assessments would be the responsibility of property owners within the district, so as not to burden the balance of the city's taxpayers. By attracting increased investment in the area, the district will benefit the city through economic development that will enable the city to better compete in a difficult regional and global economy.

C.S.S.B. 2560 relates to the creation of the Rowlett Downtown Management District.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
