

Suspending limitations on conference committee
jurisdiction, H.B. No. 1796

By: Watson

S.R. No. 1099

SENATE RESOLUTION

BE IT RESOLVED by the Senate of the State of Texas, 81st Legislature, Regular Session, 2009, That Senate Rule 12.03 be suspended in part as provided by Senate Rule 12.08 to enable the conference committee appointed to resolve the differences on House Bill No. 1796 (the development of carbon dioxide capture and sequestration in this state) to consider and take action on the following matter:

Senate Rules 12.03(3) and (4) are suspended to permit the committee to add text on a matter not in disagreement and not included in either the house or senate version of the bill by adding the following SECTION to the bill:

SECTION 30. The purpose of the changes in law made by this Act is to encourage the development of onshore and offshore geologic storage of carbon dioxide including by encouraging the development of advanced clean energy projects that capture carbon dioxide and sequester not less than 50 percent of the captured carbon dioxide in onshore or offshore geologic repositories. Securing the necessary capacity for geologic sequestration is essential to the success of carbon capture strategies, such as the advanced clean energy projects facilitated by the changes in law made by this Act. The success of the offshore repositories facilitated by this Act depends on an adequate supply of anthropogenic carbon dioxide, which is not currently being captured at industrial facilities in this state. The advanced clean energy grants established in this Act are

S.R. No. 1099

intended to create the supply of anthropogenic carbon dioxide necessary to the success of the offshore repositories facilitated by this Act.

Explanation: The added language is necessary to clarify the purpose of the provisions of the bill.

President of the Senate

I hereby certify that the above Resolution was adopted by the Senate on June 1, 2009.

Secretary of the Senate
