Fiscal Analysis

Section one of the bill would require an interagency coordinating group of governmental liaisons for faith and community-based organizations. The section establishes the Renewing Our Communities Account (ROCA) as dedicated account in the General Revenue Fund that may only be appropriated to the Health and Human Services Commission (HHSC) for certain purposes identified in the bill. A contract or grant would be awarded to the administrative entity designated (in accordance with the National and Community Service Act of 1990) as the State Commission on National and Community Service that would administer funds appropriated from the account.

The bill would require creation of a task force on strengthening nonprofit capacity. It would hold public meetings using the ROCA for expenditures, to the extent funds are available. The bill creates the Renewing Our Communities Account Advisory Committee to monitor and make suggestions

concerning the account.

This legislation would do one or more of the following: create or recreate a dedicated account in the General Revenue Fund, create or recreate a special or trust fund either with or outside of the Treasury, or create a dedicated revenue source. The fund, account, or revenue dedication included in the bill would be subject to funds consolidation review by the current Legislature.

The bill would take effect immediately if it receives a vote of two-thirds of all members elected to each house; if it does not, the bill would take effect on September 1, 2009.

**Methodology**

The grant-making requirement of section one is assumed to require funding from the new account established by the bill, as well as from possible gifts, grants and donations. It is assumed that donations deposited to the ROCA account would be expended (if appropriated). For purposes of this cost estimate, it is assumed that \$500,000 per year would be appropriated from General Revenue and then transferred to the new account. Additionally, it is assumed that the account would receive \$200,000 per year in gifts, grants and donations, for a total of \$700,000 per year in anticipated expenditures from the ROCA account.

**Local Government Impact**

No fiscal implication to units of local government is anticipated.
