

LEGISLATIVE BUDGET BOARD

Austin, Texas

FISCAL NOTE, 81ST LEGISLATIVE REGULAR SESSION

April 13, 2009

TO: Honorable John T. Smithee, Chair, House Committee on Insurance

FROM: John S. O'Brien, Director, Legislative Budget Board

IN RE: HB2000 by McCall (Relating to health benefit plan coverage for certain amino acid-based elemental formulas.), **As Introduced**

No significant fiscal implication to the State is anticipated.

The bill would amend the Insurance Code to require health insurance plans to provide coverage to enrollees for amino acid-based elemental formulas for certain diagnosed conditions regardless of the formula delivery method.

The University of Texas System Administration and the Employee Retirement System indicate that there will be a cost to adding this coverage in each agency's health plans. These costs are expected to be absorbed within existing resources.

Based on analysis provided by the Texas A&M University System Administration, it is assumed that the bill would not affect the agency's health insurance plans and therefore does not have a fiscal impact.

The Teacher Retirement System indicates that there will be additional costs to the agency's health care plans to provide this coverage, but that the cost can be absorbed within existing resources.

Based on the analysis of the Texas Department of Insurance (TDI), it is assumed that there would be a one-time revenue gain of \$34,000 in the General Revenue Dedicated Account Fund 36 in fiscal year 2010 because the bill would result in additional form filings. Since General Revenue Dedicated Account Fund 36 is a self-leveling account, this analysis assumes all revenue generated would go toward fund balances or the maintenance tax would be set to recover a lower level of revenue the following year. It is also assumed that any costs realized by TDI from implementing the provisions of the bill could be absorbed within existing resources.

Local Government Impact

No fiscal implication to units of local government is anticipated.
