

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 81ST LEGISLATIVE REGULAR SESSION

April 5, 2009

TO: Honorable Mark Strama, Chair, House Committee on Technology, Economic Development & Workforce

FROM: John S. O'Brien, Director, Legislative Budget Board

IN RE: HB4329 by Strama (Relating to the creation of a database to track specialized technology research projects conducted by public universities, public university research facilities, and other state institutions.), **As Introduced**

<p>No significant fiscal implication to the State is anticipated.</p>
--

Under provisions of the bill, the Higher Education Coordinating Board would be required to create a statewide specialized technology research database of projects being performed at institutions of higher education or other agencies. Institutions will be required to provide detailed information to the Coordinating Board regarding their projects' technology, expert faculty, technology developed, and patents gained, location of equipment, and policies for utilization of that equipment. The Higher Education Coordinating Board could, through a memorandum of understanding, work in conjunction with the Texas Economic Development and Tourism Office in collecting data for and maintaining the database. Any costs or duties associated with implementing the provisions of the bill could be absorbed within existing resources.

Local Government Impact

No fiscal implication to units of local government is anticipated.
