--

The Texas Education Agency estimates costs provide the Department of Family and Protective Services with aggregated educational outcomes for students who were in conservatorship could be met with existing resources. Assuming that students placed in foster care refers only to children in Department of Family and Protective Services (DFPS) conservatorship and not to all children in residential care, the DFPS indicates that workload associated with compiling and sharing information could be accommodated using existing resources.

**Local Government Impact**

No fiscal implication to units of local government is anticipated.
