

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 81ST LEGISLATIVE REGULAR SESSION

March 30, 2009

TO: Honorable Royce West, Chair, Senate Committee on Intergovernmental Relations

FROM: John S. O'Brien, Director, Legislative Budget Board

IN RE: SB1320 by Wentworth (Relating to notice by a governmental entity regarding certain geospatial data products.), **As Introduced**

No significant fiscal implication to the State is anticipated.

The bill would amend the Government Code to require a governmental entity to include an "informational purposes" notice on geospatial data, such as maps or mapping services, that is created or hosted by the governmental entity and was not produced using information from an on-the-ground survey conducted by or under the supervision of a registered professional land surveyor.

Based on the agency responses, it is assumed that agencies with a significant amount of mapping data would have a short term impact to become compliant with the bill, but that the impact would not be significant to the State.

Texas Parks and Wildlife indicated that if it is assumed that the maps in question should be available on the September 1, 2009, effective date of the bill, then they will have an approximate \$400,000 fiscal year 2009 expense due to reprinting costs.

Local Government Impact

The fiscal impact to local governmental entities would vary depending on the number of maps or mapping data an entity produces that would need to be updated with the required notice.
