

**LEGISLATIVE BUDGET BOARD**  
**Austin, Texas**

**FISCAL NOTE, 81ST LEGISLATIVE REGULAR SESSION**

**April 14, 2009**

**TO:** Honorable Judith Zaffirini, Chair, Senate Committee on Higher Education

**FROM:** John S. O'Brien, Director, Legislative Budget Board

**IN RE: SB1394** by Zaffirini (Relating to notification of an applicant for admission to a general academic teaching institution regarding the availability of degree programs in the applicant's preferred major field of study offered by other institutions.), **As Introduced**

**Estimated Two-year Net Impact to General Revenue Related Funds** for SB1394, As Introduced: a negative impact of (\$107,045) through the biennium ending August 31, 2011.

The bill would make no appropriation but could provide the legal basis for an appropriation of funds to implement the provisions of the bill.

**General Revenue-Related Funds, Five-Year Impact:**

<b>Fiscal Year</b>	<b>Probable Net Positive/(Negative) Impact to General Revenue Related Funds</b>
2010	(\$107,045)
2011	\$0
2012	\$0
2013	\$0
2014	\$0

**All Funds, Five-Year Impact:**

<b>Fiscal Year</b>	<b>Probable Savings/(Cost) from General Revenue Fund 1</b>
2010	(\$107,045)
2011	\$0
2012	\$0
2013	\$0
2014	\$0

**Fiscal Analysis**

The bill would require the Higher Education Coordinating Board to implement rules so that any student applying to a general academic teaching institution through ApplyTexas or any online admission application form who designates a choice of major field of study would be redirected by the application website to a notification regarding the availability of degree programs in that field of study offered by other general academic teaching institutions. The notification would include information to assist the applicant in selecting among institutions. Under provisions of the bill, an institution must direct a student who has designated a major field of study and has been denied admission to the same information.

**Methodology**

According to the Higher Education Coordinating Board, the University of Texas at Austin has been the contractor on the ApplyTexas electronic application project since its inception. All ApplyTexas costs are based on the standard hourly amount currently charged by The University of Texas at Austin's Information Technology Services (ITS) Applications Department of \$65 per hour. The estimated number of hours to complete this project is estimated to be 1,550. Therefore the project will cost  $\$65 * 1,550 = \$100,750$ . In addition, the estimated cost for the HECB programming is estimated to be \$6,295 which represents 135 hours at various hourly rates, for a total of \$107,045 for fiscal year 2010 and the biennium.

The current model for financing the ApplyTexas online application has the institutions pay for all costs. Since the development and implementation is to be completed prior to the next payment cycle for the institutions, it is assumed for purposes of this fiscal note that these costs will be covered by General Revenue.

The Coordinating Board estimates that for fiscal year 2010, it would take 260 hours for each of the 36 general academic teaching institutions/campuses using the ApplyTexas electronic application to change systems for new system requirements and to modify current denial systems. Therefore, each institution will incur a cost of  $260 * \$65 = \$16,900$ , giving a total cost for all institutions of  $36 * \$16,900 = \$608,400$ . It is assumed that these costs to the institutions could be absorbed within existing resources.

### **Local Government Impact**

No fiscal implication to units of local government is anticipated.
