AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

This bill expands the borrowing authority of public rural hospitals. Most public hospitals currently have authority to borrow only through general obligation or revenue bonds and have no authority to borrow from a bank. On the other hand, private and nonprofit hospitals are not excluded from short-term borrowing from a bank. This bill amends the Health and Safety Code to authorize public hospitals to borrow from banking institutions for short-term needs (less than five years) and to pledge hospital assets or revenue for that purpose.

H.B. 831 amends current law relating to the authority of certain local governmental entities to borrow money for a public hospital.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
