AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

A large Texas school district recently launched an initiative to improve student academic achievement in certain school district schools. One of the initiative's points of emphasis is increased instructional time, added at the beginning of the school year, to provide students additional time to prepare for statewide standardized tests in the spring. However, given the current prohibition on school districts from starting student instruction earlier than the fourth Monday in August, legislative action is required to allow a district to extend the school year. H.B. 1555 seeks to make changes relating to the first day of instruction in certain school districts that provide additional days of instruction financed with local funds.

H.B. 1555 amends current law relating to the first day of instruction in certain school districts that provide additional days of instruction financed with local funds.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
