### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

H.B. 3237 will establish the Texas Women Veterans Program within the Texas Veterans Commission (TVC). The mission of this program is to ensure that the women veterans of Texas have equitable access to federal and state veterans' benefits and services.

TVC currently assists women in accessing Veteran Affairs (VA) benefit programs and health care services. There are slightly more than 150,000 women veterans in Texas, but many of them are not able to take advantage of the benefits and services afforded to them due to a lack of awareness or because the services are tailored to be specific and as such are inadvertently exclusionary to women. An example of exclusionary services include group counseling sessions for persons who suffer from post traumatic stress.

What is more, the current level of assistance is provided only as a service within TVC. There is no statute in place that provides for or protects women veterans exclusively. This bill would create the Texas Women Veterans Program as an entity within TVC to better ensure equitable provision and assistance to women veterans in this state.

The primary focus of this program rests on advocacy, public awareness, collaboration with other agencies, research, honor and recognition, and general assistance. This program is applicable to women who have served on active duty in the armed forces of the United States or in the Texas National Guard on federal active duty under Title 10, United States Code, and were discharged or released from that service under conditions other than dishonorable.

H.B. 3237 amends current law relating to the establishment and operation of the Texas Women Veterans Program.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
