AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

A great deal of diversion of controlled substances is committed by persons who have access to those substances by the nature of their profession or employment. This legislation is designed to address those persons, who by the nature of their profession or employment, divert controlled substances for personal use or the use of another person. Furthermore, this legislation will aid in the prevention of stolen controlled substances being sold on the black market by holding those with trusted access to the controlled substances more accountable.

S.B. 159 creates an offense if a person by nature of the person's profession or employment diverts controlled substances for personal use or the use of another.

As proposed, S.B. 159 amends current law relating to the diversion of a controlled substance by certain persons who have access to the substance by virtue of the persons' profession or employment and provides penalties.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
