AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Current Texas law imposes burdensome restrictions on school districts' decision-making power in ways that range from requirements regarding personnel matters to mandates concerning school operation and resource allocation. In addition, state law creates barriers for a school district, both to its sound operation, and to its ability to implement necessary changes to improve education quality and increase efficiency in ways like preventing full access to virtual courses, and mandating certain unnecessary tax hearings.

S.B. 468 returns control of personnel matters to school districts by pushing back the deadline for notice of contract renewal to 10 days after the last instructional day, and repealing the requirement that teachers receive at least the same salary as earned in the 2010-2011 school year.

S.B. 468 returns control over operations and resource allocation to school districts by removing the 10 to one student-teacher ratio requirement for remedial courses and removing regulations on pest management.

Finally, S.B. 468 removes barriers that inhibit school district improvement and efficiency by eliminating the course limitation on student access to virtual classes and establishing that a school board is not required to publish another notice or hold another hearing if a debt service tax rate is adopted that is lower than what is published in the original required public notice.

As proposed, S.B. 468 amends current law relating to the flexibility of the board of trustees of a school district in the management and operation of public schools in the district.
