AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The Texas Commission on Environmental Quality (TCEQ) designated three noncontiguous areas of Dallam County as a priority groundwater management area in 1990. This area, referred to as the Dallam County Priority Groundwater Management Area (PGMA), is surrounded by the North Plains Groundwater Conservation District (GCD) and is mostly located in the northern part of the county. On August 11, 2008, TCEQ staff recommended that the Dallam County PGMA join the North Plains GCD. This question was put before the voters on the November 2, 2010, ballot, and the proposition was defeated.

There are now three options for the Dallam County PGMA. Legislation can be enacted to create a GCD; the Dallam County PGMA can petition TCEQ to form a GCD comprised of the current PGMA; or, if neither of these options occur before November 2, 2011, TCEQ will issue an order to create a GCD comprised of the current PGMA. This bill ensures that all three options as outlined above are still viable.

As proposed, S.B. 956 amends current law relating to the creation of the Northern Dallam County Groundwater Conservation District and provides authority to impose a tax and issue bonds.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
