AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The Bootstrap Program was established in 1999 to promote and enhance homeownership opportunities for low-income families. Since its establishment, two-thirds of the program's funds were dedicated to regions that were assisted by the Economically Distressed Areas Program (EDAP). The rationale behind this was to target a portion of the funds to low-income Texans in the most distressed areas of the state, like those areas assisted by EDAP, so as to address their affordable housing needs. A 2008 internal agency interpretation of the statute limited the use of the two-thirds of Bootstrap funds to counties that have adopted the Model Subdivision Rule.

S.B. 992 was developed in consultation with housing advocates and officials to clarify the legislative intent of the Bootstrap Program by eliminating the Model Subdivision Rule requirement from program eligibility to ensure that distressed regions all over the state can participate in the program.

S.B. 992 amends current law relating to the allocation of loans made under the owner-builder loan program.
