H.B. No. 820

A BILL TO BE ENTITLED 1 AN ACT 2 relating to monitoring air contaminants under the Texas Clean Air 3 Act. BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS: 4 SECTION 1. Subchapter B, Chapter 382, Health and Safety 5 Code, is amended by adding Section 382.0161 to read as follows: 6 Sec. 382.0161. MONITORING REQUIREMENTS FOR MAJOR SOURCES. 7 (a) In this section, "major source" has the meaning assigned by 8 9 Title V of the federal Clean Air Act (42 U.S.C. Section 7661). (b) In addition to other monitoring requirements under this 10 chapter, the commission by rule shall require the owner or operator 11 of a major source to: 12 (1) provide for daily fence-line monitoring of air 13 14 contaminant emissions from the major source; and 15 (2) make and maintain records on the measurement and 16 monitoring of the emissions. (c) In providing for the daily fence-line monitoring of air 17 contaminant emissions as required by this section, the owner or 18 operator of the major source must: 19 (1) provide for at least two monitors with each of the 20 21 monitors placed on opposite sides of the source, one of which is located predominantly upwind and the other located predominantly 22 23 downwind; 24 (2) provide for a sufficient number of monitors so

1	that the maximum distance measured along the fence line between
2	each monitor is one-eighth of a mile; and
3	(3) place the monitors in such a way that the monitors
4	are evenly spaced and are located where air contaminants have the
5	highest concentration levels at the fence line of the emission
6	source.
7	(d) The owner or operator of a major source shall designate
8	an independent consultant approved by the commission to certify to
9	the commission that the major source is in compliance with this
10	section. A member, employee, or agent of the commission may examine
11	during regular business hours the monitoring equipment or any
12	records or memoranda relating to the monitoring equipment required
13	under this section.
14	(e) The commission by rule shall require the owner or
15	operator of a major source to submit for the executive director's
16	approval a list of the air contaminant emissions that the owner or
17	operator will monitor under this section. To be eligible for
18	approval, the list must include:
19	(1) each hazardous air pollutant listed under Section
20	112 of the federal Clean Air Act (42 U.S.C. Section 7412) that is
21	applicable to the major source; and
22	(2) any other air contaminant the emission of which
23	the executive director or a local municipal or county air pollution
24	control agency requests that the owner or operator monitor.
25	(f) The commission may adopt rules allowing the owner or
26	operator of a major source to request an exemption from the
27	fence-line monitoring requirements of this section. To be eligible

H.B. No. 820

for an exemption, the owner or operator must submit to the executive 1 2 director for approval an alternative monitoring plan that demonstrates continuous or semi-continuous monitoring of each 3 stack, vent, flare, cooling tower, or other device for which 4 technologically feasible monitoring devices are available. The 5 6 owner or operator shall review the plan at least once every five years to identify additional monitoring opportunities based on new 7 technology and submit proposed changes to the executive director 8 9 for approval. SECTION 2. Not later than September 1, 2012, the owner or 10 operator of a major source must provide for the fence-line 11 monitoring of air contaminant emissions as required by Section 12 382.0161, Health and Safety Code, as added by this Act. 13

14 SECTION 3. This Act takes effect September 1, 2011.
