A BILL TO BE ENTITLED

1	AN ACT
2	relating to improving the quality and efficiency of health care.
3	BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:
4	ARTICLE 1. LEGISLATIVE FINDINGS AND INTENT; COMPLIANCE WITH
5	ANTITRUST LAWS
6	SECTION 1.01. (a) The legislature finds that it would
7	benefit the State of Texas to:
8	(1) explore innovative health care delivery and
9	payment models to improve the quality and efficiency of health care
10	in this state;
11	(2) improve health care transparency;
12	(3) give health care providers the flexibility to
13	collaborate and innovate to improve the quality and efficiency of
14	health care; and
15	(4) create incentives to improve the quality and
16	efficiency of health care.
17	(b) The legislature finds that the use of certified health
18	care collaboratives will increase pro-competitive effects as the
19	ability to compete on the basis of quality of care and the
20	furtherance of the quality of care through a health care
21	collaborative will overcome any anticompetitive effects of joining
22	competitors to create the health care collaboratives and the
23	payment mechanisms that will be used to encourage the furtherance
24	of quality of care. Consequently, the legislature finds it

appropriate and necessary to authorize health care collaboratives
 to promote the efficiency and quality of health care.

(c) The legislature intends to exempt from antitrust laws 3 4 and provide immunity from federal antitrust laws through the state action doctrine a health care collaborative that 5 holds a certificate of authority under Chapter 848, Insurance Code, as 6 7 added by Article 3 of this Act, and that collaborative's negotiations of contracts with payors. The legislature does not 8 9 intend or authorize any person or entity to engage in activities or 10 to conspire to engage in activities that would constitute per se violations of federal antitrust laws. 11

The legislature intends to permit the use of alternative 12 (d) 13 payment mechanisms, including bundled or global payments and quality-based payments, among physicians and other health care 14 15 providers participating in a health care collaborative that holds a 16 certificate of authority under Chapter 848, Insurance Code, as added by Article 3 of this Act. The legislature intends to 17 18 authorize a health care collaborative to contract for and accept payments from governmental and private payors based on alternative 19 20 payment mechanisms, and intends that the receipt and distribution of payments to participating physicians and health care providers 21 is not a violation of any existing state law. 22
