

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 82ND LEGISLATIVE REGULAR SESSION

May 19, 2011

TO: Honorable Joe Straus, Speaker of the House, House of Representatives

FROM: John S O'Brien, Director, Legislative Budget Board

IN RE: HB240 by Parker (Relating to requiring the Texas Commission on Environmental Quality to adopt rules preventing access to on-site sewage disposal systems.), **As Passed 2nd House**

No significant fiscal implication to the State is anticipated.

The bill would require the Texas Commission on Environmental Quality (TCEQ) to adopt rules relating to the operation of on-site sewage disposal systems that prevent accidental or unintentional access to such systems by owners and certain other persons, including requiring risers and covers, of on-site sewage disposal systems installed after September 1, 2012. Although the bill could result in an increased workload to the TCEQ because it could require additional consideration in its review of proposed systems and enforcement activities, this estimate assumes that the additional costs could be absorbed using existing agency resources.

Local Government Impact

Local governments that administer the On-Site Sewage Facilities Program could see an increase in workload relating to plan review and enforcement, this estimate does not assume that the agency would adopt rules requiring that all existing systems to be modified, resulting in no significant fiscal implications to local governments.
