Fiscal Analysis

The bill would amend Chapter 151 of the Tax Code, regarding the sales and use tax.

The bill would require purchasers of certain items used in an agricultural or timber operation to apply for a registration number from the Comptroller's Office before claiming a sales and use tax exemption. The registration number must be shown on the purchaser's exemption certificate.

Persons applying for a registration number must be engaged in the production of agricultural products or timber for sale or in an agricultural aircraft operation as defined by 14 C.F.R. Section 137.3. An application for a registration number must be on a form prescribed by the Comptroller's Office, and provide the name and address of the business owned, the type of crops, livestock or other agricultural products sold, if applicable, and any other data the Comptroller deems necessary. Registration numbers would be subject to renewal every four years.

The bill would make conforming changes elsewhere in Chapter 151, and in Chapter 152, of the Tax Code.

This bill would take effect September 1, 2011.

Methodology

The bill's provisions requiring a registration number when purchasing certain agriculture-related items, and when claiming an exemption, would deter some of the improper uses of exemption certificates identified by Comptroller's Office auditors. Data on the sales of items affected by the provisions of this bill were gathered from public and private sources; adjusted to represent the share of those sales not related to agriculture use, but using an exemption certificate; and extrapolated through 2016.

The administrative cost estimate reflects the funds that would be necessary to hire 2 FTEs and contract for seasonal employees to administer the agricultural exemption program, web development and programming, and security controls.

Technology

There would be a one-time technology cost of \$323,000.00 in fiscal year 2012 for development, programming and project management.

Local Government Impact

There would be a proportional gain of sales and use tax revenue to local taxing jurisdictions.
