

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 82ND LEGISLATIVE REGULAR SESSION

March 7, 2011

TO: Honorable Allan Ritter, Chair, House Committee on Natural Resources

FROM: John S O'Brien, Director, Legislative Budget Board

IN RE: HB849 by Miller, Sid (Relating to notice of an application for a permit to dispose of oil and gas waste in a commercial disposal well; creating an offense.), **As Introduced**

No significant fiscal implication to the State is anticipated.

The bill would require the Railroad Commission (RRC) to amend agency rules with respect to a commercial disposal well permit application. The bill would require the RRC to provide: notice of a commercial disposal well permit application be provided to each surface owner of record of each adjoining surface tract, county commissioners court and the groundwater conservation district; publication of notice in the newspaper that is published in closest proximity to the disposal well location; and that surface owners who receive notice of a commercial disposal well application provide notice of the application to lessees and potential purchasers of the property. Subsection a-2 states that the failure of a person who receives notice of an application under Subsection (a-1)(1)(A) to give notice of the application to any person to whom the person is required to give notice under Subsection (a-1)(2) does not invalidate any permit issued by the railroad commission and may not be considered by the RRC with respect to any pending permit application.

Any additional responsibilities required of the RRC as a result of the bill's passage are not expected to result in significant costs to the agency.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
