The bill would amend the Insurance Code relating to the regulation of certain transactions related to life insurance and related products; providing penalties. Based on the analysis provided by the Texas Department of Insurance (TDI), it is assumed that any costs associated with the implementation of this bill would be absorbed within existing agency resources. Also based on information provided by TDI, this analysis assumes that implementation of the bill could result in a one-time revenue gain (\$106,100 in fiscal year 2012) in General Revenue-Dedicated Texas Department of Insurance Fund 36 from penalties due to late report filings. Since General Revenue-Dedicated Texas Department of Insurance Fund 36 is a self-leveling account, this analysis also assumes that any additional revenue resulting from the implementation of the bill would accumulate in the account fund balances and that the department would adjust the assessment of the maintenance tax or other fees accordingly in the following year.

**Local Government Impact**

No fiscal implication to units of local government is anticipated.
