The bill would require the executive commissioner of the Health and Human Services Commission (HHSC) to appoint an advisory committee to advise the Department of State Health Services (DSHS) concerning the HIV Medication Program; the Board of Health is currently authorized to appoint an advisory committee to assist in the development of procedures and guidelines for the HIV Medication Program. The advisory committee currently exists and is administratively attached to DSHS; according to HHSC and DSHS, there would be no significant fiscal impact from changing the appointment process.
