Fiscal Analysis

The bill would require the Legislative Budget Board (LBB) to include in each fiscal note that authorizes or requires the expenditure or diversion of state funds a statement of the purposes of the bill and a set of reasonable benchmarks that provide a mechanism for measuring whether and to what degree the bill's purposes have been achieved. The LBB is required to coordinate with the author or sponsor of the bill to determine the purposes of the bill and to set reasonable benchmarks.

Before the first day of the third regular legislative session after a bill becomes law, the LBB is to report to the Lieutenant Governor and Speaker whether the required benchmarks have been met.

This act takes affect September 1, 2011.

Methodology

The LBB would require an additional three FTE's in each session year to perform the functions required by the bill at a cost of \$44,751 per FTE. Beginning with the year before the first year that the LBB is required to report to the Legislature (2018), the same number of FTE's would also be required in the even numbered years to produce the report.

Local Government Impact

No fiscal implication to units of local government is anticipated.
