**IN RE: SB1177** by Nelson (Relating to the adoption by health care facilities of a policy on vaccine preventable diseases; imposing penalties.), **As Engrossed**

<b>No fiscal implication to the State is anticipated.</b>
---

The bill would add a new chapter to the Health and Safety Code that would require health care facilities to develop and implement policies related to employee immunizations, in order to protect patients from vaccine-preventable diseases. It would permit exemptions for medical reasons and reasons of conscience; facilities would be authorized to prohibit those employees from contact with patients during a public health disaster. The bill would take effect September 1, 2011.

The Department of State Health Services indicates that implementation of the provisions of the bill would have no fiscal impact.

**Local Government Impact**

No fiscal implication to units of local government is anticipated.
