

## **BILL ANALYSIS**

C.S.H.B. 1650  
By: Raymond  
International Trade & Intergovernmental Affairs  
Committee Report (Substituted)

### **BACKGROUND AND PURPOSE**

Interested parties identify a need for uniform standards for the regulation of the development of subdivisions in the unincorporated areas of certain counties near the international border and in certain economically distressed counties, in areas described as colonias. C.S.H.B. 1650 seeks to provide for those standards as they relate to county and municipal land development regulation by, among other provisions, requiring the preparation of plats by certain subdividers of land and ensuring compliance with the model rules adopted by the Texas Water Development Board relating to minimum standards for safe and sanitary water supply and sewer services in residential areas.

### **RULEMAKING AUTHORITY**

It is the committee's opinion that this bill does not expressly grant any additional rulemaking authority to a state officer, department, agency, or institution.

### **ANALYSIS**

C.S.H.B. 1650 amends the Government Code to require the secretary of state's statewide system for identifying colonias to include a method for a municipality or county, on a form prescribed by the secretary of state, to nominate an area for identification as a colonia and to authorize the system to provide for the review of a nominated area by the Texas Water Development Board (TWDB), the office of the attorney general, or any other appropriate state agency as determined by the secretary of state.

C.S.H.B. 1650 amends the Local Government Code to increase from 10 or more acres to more than 10 acres the minimum subdivision lot size required for an exemption from subdivision platting requirements in certain counties near an international border.

C.S.H.B. 1650 makes the requirement for a subdivider of land subject to subdivision platting requirements in certain counties near an international border to have a subdivision plat prepared contingent on at least one of the subdivision lots being five acres or less and authorizes a commissioners court by order to require the preparation of a plat if none of the lots is five acres or less but at least one of the lots of a subdivision is more than five acres but not more than 10 acres.

C.S.H.B. 1650 authorizes a commissioners court in certain economically distressed counties other than certain counties near an international border by order to require each subdivider of land in that county to prepare a plat if none of the lots is five acres or less but at least one of the lots of the subdivision is more than five acres but not more than 10 acres. The bill specifies that the requirement applicable to an owner of a tract of land in such a county who divides the tract in any manner that creates lots of five acres or less intended for residential purposes to have a subdivision plat prepared applies if the division of the tract creates at least one lot of five acres or less.

C.S.H.B. 1650 amends the Water Code to authorize the TWDB's model rules for ensuring minimum standards for safe and sanitary water supply and sewer services in residential areas to impose requirements for platting or replatting under provisions requiring the model rules to provide criteria applicable to tracts that were divided into two or more parts to lay out a subdivision and were not platted or recorded before September 1, 2005, to prohibit the establishment of residential developments with lots of five acres or less in the political subdivision without adequate water supply and sewer services, and to prohibit more than one single-family, detached dwelling to be located on each lot. The bill authorizes a municipality or county that has adopted the model rules, except as may be required under an agreement developed under Local Government Code provisions relating to the regulation authority of a municipality and county, to impose municipal or county platting requirements, as applicable, to real property that is required to be platted or replatted by the provisions of the model rules.

C.S.H.B. 1650 removes previous prerequisites regarding the local adoption of the model rules before the TWDB could consider an application for funding from certain funds or under certain programs administered by the TWDB and instead requires a municipality to adopt and enforce the model rules if the applicant is located in the municipality, requires the applicant to demonstrate that the model rules have been adopted and are enforced in the extraterritorial jurisdiction by the municipality or the county if the applicant is located in the municipality's extraterritorial jurisdiction, and requires the county to adopt and enforce the model rules if the applicant is located outside the extraterritorial jurisdiction of a municipality.

**EFFECTIVE DATE**

September 1, 2013.

**COMPARISON OF ORIGINAL AND SUBSTITUTE**

While C.S.H.B. 1650 may differ from the original in minor or nonsubstantive ways, the following comparison is organized and highlighted in a manner that indicates the substantial differences between the introduced and committee substitute versions of the bill.
