### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Students who get involved in the voting process at a young age are more likely to continue to vote throughout their life.

S.B. 1134, 81st Legislature, Regular Session, 2009, permitted high school students to participate in voting clerkships. S.B. 1134 created an opportunity for students to learn about the democratic process in a hands-on manner. These students must get permission from their schools to participate in the clerkships. Unfortunately, many students were unable to participate because they could not do so on the election date.

S.B. 553 allows students to participate as early voting clerks, thereby expanding the opportunity to participate in the election process. S.B. 553 allows each polling location to have four students serve as clerks.

As proposed, S.B. 553 amends current law relating to certain high school students serving as early voting clerks in an election.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
