

BILL ANALYSIS

C.S.S.B. 611
By: Lucio
Natural Resources
Committee Report (Substituted)

BACKGROUND AND PURPOSE

Due to urbanization and changing circumstances, districts that previously substantially delivered only irrigation water are now delivering larger amounts of raw untreated water to municipal suppliers for municipal and/or industrial use instead of substantially irrigation use.

C.S.S.B. 611 changes the manner in which districts engaged in the delivery of irrigation water; how they determine the amount of flat rate assessment against irrigable land in water control and improvement, water improvement, and irrigation districts; and which projects require a district engineer to study and which allow use of their own personnel.

As proposed, C.S.S.B. 611 amends current law relating to the irrigation powers and functions of certain water districts.

RULEMAKING AUTHORITY

It is the committee's opinion that this bill does not expressly grant any additional rulemaking authority to a state officer, department, agency, or institution.

ANALYSIS

SECTION 1. Amends Section 51.301(a), Water Code, as follows:

(a) Requires each person who desires to receive irrigation water at any time during the year, if required by the board of directors of a water control and improvement district (board), to furnish the secretary of the board a written statement of the acreage the person intends to irrigate and the different crops the person intends to plant with the acreage of each crop. Makes nonsubstantive changes.

SECTION 2. Amends Section 51.302, Water Code, as follows:

Sec. 51.302. New heading: **CONTRACTS WITH PERSON USING IRRIGATION WATER.** (a) Authorizes the board to require each person who desires to use irrigation water during the year to enter into a contract with the water control and improvement district (district) which states the acreage to be irrigated, rather than watered, the crops to be planted, the amount to be paid for the water, and the terms of payment.

(b) Requires a person, if the person irrigates more acreage, rather than land, than the person's contract specifies, to pay for the additional service.

(c) Authorizes the members of the board (directors) also to require a person using irrigation water to execute a negotiable note or notes for all or part of the amount owed under the contract.

(d) Provides that the contract is not a waiver of the lien given to the district under Section 51.309 against the crops of a person using irrigation water for the service furnished to the person.

Makes nonsubstantive changes.

SECTION 3. Amends Section 51.303, Water Code, as follows:

Sec. 51.303. **AUTHORITY TO DETERMINE RULES AND REGULATIONS.** Authorizes the board to adopt, alter, and rescind rules, regulations, and standing and temporary orders which do not conflict with the provisions of this subchapter (Water Charges and Assessments) and which govern:

- (1)-(2) Makes no change to these subdivisions;
- (3) assessment, charges, fees, rentals, or deposits, rather than assessments alone, for maintenance and operation;
- (4) payment and the enforcement of payment of the assessment, charges, fees, rentals, or deposits, rather than of the assessments;
- (5) furnishing irrigation water to persons who did not apply for it before the date of assessment if required; and
- (6) furnishing water to persons who wish to take water for irrigation in excess of their original applications or for use on land not covered by their original applications if required.

Sec. 51.304. **BOARD'S ESTIMATE OF MAINTENANCE AND OPERATING EXPENSES.** Requires the board, on or as soon as practicable after a date fixed by standing order of the board, to estimate the expenses of maintaining and operating the district's water delivery system, rather than the irrigation system, for the next 12 months. Authorizes the board to change the 12-month period for which it estimates the expenses of maintaining and operating the water delivery system, rather than the irrigation system, by estimating such expenses for a shorter period so as to adjust to a new fixed date and thereafter estimating the expenses for 12-month periods following the adjusted fixed rate.

SECTION 5. Amends Section 51.305, Water Code, as follows:

Sec. 51.305. **DISTRIBUTION OF ASSESSMENT.** (a) Requires the board by order to allocate a portion, rather than requires that not less than one-third nor more than two-thirds, of the estimated maintenance and operating expenses that are required to be paid by assessment against all land in the district to which the district can furnish irrigation water through its water delivery system or through an extension of its water delivery system, rather than through its irrigation system or through an extension of its irrigation system. Requires that this assessment be levied against all irrigable land in the district on a per acre basis, whether or not the land is actually irrigated.

(b) Requires the board to determine from year to year the proportionate amount of the expenses which will be borne by all water users receiving water delivery from the district, rather than by water users. Deletes existing text requiring that the assessments be levied against all irrigable land in the district on a per acre basis, whether or not the land is actually irrigated.

(c) Requires that the remainder of the estimated expenses be paid by assessments, charges, fees, rentals, or deposits required of persons in the district, rather than paid by assessments against persons in the district, who use or who make application to use water and other charges approved by the board. Requires the board to prorate the remainder, rather than prorate the remainder as equitably as possible, among the applicants for irrigation water and is authorized to consider:

- (1) the acreage each applicant will plant, the crop the applicant will grow, and the amount of water per acre used for irrigation purposes, rather than the amount of water per acre; and

(2) other factors deemed appropriate by the board with respect to water used for other nonirrigation uses.

(d) Authorizes a landowner of irrigable land in the district or a user of water delivered by the district for any purpose other than irrigation who disputes all or part of a board order that determines the amount of an assessment, charge, fee, rental, or deposit to file a petition under Section 11.041.
