### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Current law requires a wide variety of governmental entities to submit various reports. The number of required reports grows each year and some reports are duplicative especially as agency functions consolidate but reporting requirements do not. Other reports are obsolete and no longer useful because related programs or funds have been abolished or because programs and services have changed. The 82nd Legislature passed H.B. 1781 requiring the executive director of each state agency to examine the agency's statutory reporting requirements and identify reports that are determined to be unnecessary, redundant, or required to be provided at a frequency for which data is not available.

The purpose of this bill is to implement improvements to the Texas Department of Agriculture's (TDA) reporting schedules and requirements to eliminate duplicative or unnecessary reports and adjust other reporting schedules to align with the frequency for which the data is available. The efficiencies gained by TDA will allow greater resources to be dedicated to relevant reporting requirements and direct customer service to Texans.

S.B. 772 amends current law relating to the elimination of obsolete and redundant reporting requirements for the Department of Agriculture.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
