### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Currently, the lack of a water conservation district in Reeves County hinders efforts to keep a sustainable approach to manage the aquifer. Reeves County officials believe this is a potential problem as water use demands increase into the future.

S.B. 890 creates the Reeves County Groundwater Conservation District in order to establish the county's ability to manage, protect, and preserve the aquifers that are located within the geographical boundaries of Reeves County. The initial boundaries of the district would be coextensive with the boundaries of Reeves County.

An election to confirm creation of the district is required. The district's seven directors, appointed by the Reeves County Commissioners Court, will serve staggered four-year terms. The bill authorizes the district to impose certain reasonable well fees and allows the district to impose an ad valorem tax. The bill prohibits the district from exercising the power of eminent domain.

S.B. 890 amends current law relating to the creation of the Reeves County Groundwater Conservation District, provides authority to issue bonds, and provides authority to impose fees, surcharges, and taxes, and prohibits the district from exercising the power of eminent domain.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
