### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

S.B. 1101 will extend the Texas Cybersecurity, Education, and Economic Development Council (council), as established by S.B. 988, 82nd Legislature, Regular Session, 2011, for an additional two years.

The council will continue to facilitate relationships between members representing governmental agencies, businesses, and institutions of higher education in an effort to advance cybersecurity initiatives, while also providing research for the improvement of the cybersecurity infrastructure of the state. The role of the council will be especially important as various aspects of the recommendations made in the council's 2012 report begin to be put into action.

S.B. 1101 amends current law relating to the Cybersecurity, Education, and Economic Development Council.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

### **SECTION BY SECTION ANALYSIS**

SECTION 1. Amends Section 2054.506, Government Code, to provide that this subchapter expires and the Cybersecurity, Education, and Economic Development Council is abolished September 1, 2015, rather than September 1, 2013.

SECTION 2. Effective date: upon passage or on the 91st day after the last day of the legislative session.
