### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Currently, the lack of a groundwater conservation district in Sabine, San Augustine, and Shelby Counties hinders efforts to keep a sustainable approach to managing the aquifer.

Elected officials in each of these three counties believe this is a potential problem as future water use demands increase.

S.B. 1840 creates the Deep East Texas Groundwater Conservation District (district) in order to establish the region's ability to manage, protect, and preserve the aquifers that are located within the geographical boundaries of Sabine, San Augustine, and Shelby Counties. The creation of the district will be subject to voter approval and the district will have no power of eminent domain.

S.B. 1840 amends current law relating to the creation of the Deep East Texas Groundwater Conservation District, provides the authority to issue bonds, and provides the authority to impose assessments, fees, and taxes.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
