Fiscal Analysis

The bill would amend Chapter 171 of the Tax Code, regarding the franchise tax, to add a

deduction from total revenue of \$1 million for all taxable entities.

The bill would provide that only one member of a combined group would be allowed the deduction. The bill would provide that the amount of the deduction from total revenue be adjusted by the percentage change in the consumer price index during the preceding biennium and rounded to the nearest \$10,000. The bill would delete or repeal portions of Chapter 171 relating to the amount of total revenue a taxable entity could have and owe no franchise tax, the provisions relating to discounts for taxable entities with total revenue of less than \$900,000, and the adjustments of those amounts by the change in the consumer price index.

Except as otherwise provided in the bill, the bill would take effect on January 1, 2014, and apply to reports due on or after that date.

Methodology

The estimated fiscal impact is based on the Comptroller's franchise tax data files.

Technology

The Comptroller indicates there would be a one-time technology cost of \$292,000 in fiscal year 2014 for programming and system support costs.

Local Government Impact

No fiscal implication to units of local government is anticipated.
